Memorial Day Weekend Remembering Our Fallen Soldiers

Piti, Guam (May 26, 2003) -- Sgt. 1st Class Joseph Cruz assigned to the Army National Guard of Guam salutes after placing his rifle, helmet, and dog tags on a memorial to fallen servicemen and women from World War II during Memorial Day ceremonies at the Piti Veterans' Cemetery. wikipedia.org

Memorial Day is observed every year on the final Monday of May. The purpose of Memorial Day is to remember the men and women who died while serving in the United States Armed forces. The holiday was formerly known as Decoration Day, originating after the American Civil War to commemorate the Union and Confederate soldiers who died in that conflict. By the 20th century, Memorial Day was extended to all Americans who died while in military service. The holiday typically marks the beginning of summer vacation, while Labor Day marks the end.

Mark will revisit his last lecture between 3pm-3:30pm, break for a 15 minute intermission and continue with part two at 3:45pm-4pm. The event will take place at the Art House located at 320 N Columbia Street on Sunday, May 26th, and is free and open to the public.

"Chapter Two" Runs May 10 - 26

Playmakers Presents One Of Neil Simon's Finest Comedies

"Chapter Two" is a hilarious play written by Neil Simon, widely perceived to be an autobiographical glimpse into the author's own experience of losing a wife, then falling in love again. The play centers around four characters: a mourning writer named George Schneider (Gordon Carmadelle); a level headed actress named Jenny Malone (Megan Eddy); George's brother Leo (Kyle Riche) and Jenny's clueless but enchanting friend, Faye (Emily Antrainer). "Help Whip Cancer" With Pampered Chef

By Rosie Noggerath, Independent Consultant

I started my Pampered Chef business because I love their products! But Pampered Chef is more than that; it was started in 1980 by Doris Christopher in order to earn money and be a full time mom, and she had a purpose: "To get us to gather together and enjoy a shared mealtime experience". For that reason we provide high quality tools and recipes that make cooking simple, easy and fun! Pampered Chef can also assist the community by raising money for different causes like American Cancer Society and Feeding America. This month PC is raising money to "Help Whip Cancer". For more information about our products and to participate in our fundraiser this month, go to my website: **www.pamperedchef.biz/rosiescorner**.

FAQ's from Goodbee Plumbing

Why is my water pressure low or my water flows too slow?

This is typically an issue with the water service, or with the pipes in the house. Actually, the pressure may be OK and there is simply a limit on the volume of water able to pass through the system. Many homes built before 1975 have galvanized water service lines, and many homes built before 1965 have galvanized piping throughout the house. Galvanized pipe rusts over time. Eventually the pipe fills with rust, choking the flow of water. You may see a major benefit by replacing the water service line, allowing you to run multiple fixtures at one time without the water volume dropping. We can diagnose the problem with a simple inspection of the lines.

The plumbing makes groaning and honking noises.

You may have lost your 'air cushion'. Turn off the water supply at the main valve. Turn on all the faucets around your home. Then turn on the main valve again and shut off each faucet. This should fix the problem by restoring the 'air cushion'.

How do I eliminate odor coming from my garbage disposal?

Foul odors are from a buildup of food debris within the disposal. To eliminate odors, place ice cubes and lemon peels or orange peels in the disposal, and run for 30 seconds. Next, squirt a little liquid dish detergent into the disposer while it is still running. Run cold water for about 30 seconds to rinse all the debris away.

What is the white stuff around my shower head and faucet?

This is mineral deposits. To remove these deposits, take a plastic bag and pour a cup of vinegar in it. Place the bag over the shower head and use a twist tie to hold it in place overnight. In the morning, remove the bag and use an old toothbrush to gently scrub off the deposits. You might be able to remove the aerators from the faucets and allow them to soak in the vinegar overnight. If this is a continuing problem, you may need water filtration equipment installed in your home. We can explain all of the water softening and conditioning options available to you.

Vagabond Swing Music is meant to be experienced. This is the ideal that inspires the eclectic, high-energy sound of the Lafayette, LA based band Vagabond Swing. The band creates the driving force behind their music with their uninhibited blending of styles and creativity. With their musical roots ranging from bluegrass to ska, the band produces a surprisingly smooth mixture of progressive Gypsy/Experimental/Circus-vibe/Swing tunes. Along with their melodic energy, the band members themselves bring on a show of vibrant, youthful spunk, which gives their performance a thrashing air of excitement. They recently released Soundtrack to an Untimely Death (2011), their first full-length album, with Grammy Award winning engineer, Tony Daigle. Dabbling with both serious and playful themes, Soundtrack is a continuous movement of mutually complex and easy-listening songs. The record is broken into a five-chapter story, which effectively turns the entire piece into a multipart gypsy ballad. Band members include: Jon Stone (mandolin, vocals, percussion), Jesse Duplechain (guitar, melodica, background vocals), Bryan Webre (guitar, keys, programming, percussion, background vocals), Hayden Talley (upright bass), Josh LeBlanc (trumpet, keys, percussion, background vocals), Steven Pilcher (trumpet, keys, percussion, vocals), and Roy Durand (drums, vocals, percussion).
