Natural Solutions To Pest Control This Spring Season Good Dog Naturally Carries Safe And Effective Options

For the Spring flea season, Good Dog Naturally now features Lumino Diatomaceous Earth for Pets. Diatomaceous Earth (DE) is the fossilized remains of microscopic shells created by single celled aquatic plants, or diatoms. Lumino DE is sourced from one of four deposits considered Chemical Codex Food Grade by FDA standards. Lumino DE is amorphous silica (silica in its naturally occurring state), a trace mineral all mammals need in order to survive. Its action on fleas however, is devastatingly effective. DE is a physical or mechanical option, not a chemical one, so there is no danger of a reaction with other products or concern of overdose. DE acts as a super desiccant, dehydrating the flea within seventy-two hours on contact. Stop in Good Dog Naturally

Good Dog Naturally is also home to The Scrubby Puppy, a fullservice grooming facility and do-it-yourself dog wash. Schedule an appointment for a clip, or find locally sourced and produced raw pet foods and treats like Tiger Bait. Stop in to learn about some of the highest quality and best researched pet foods and products available from the knowledgeable and friendly staff.

Strong Public Showing. Skateboard Ordinance Withdrawn

It started with a ride from the corner of New Hampshire and Boston to the City Council Chambers. After listening to feedback from the community during one of the highest-attended meetings in recent history, the City Council voted to withdraw the proposed skateboard ordinance altogether. While skateboarding may not be among the most serious issues facing the City of Covington, it proved that the community will assemble peacefully to defend their rights.
