CPD: New Law Prohibits Cell Phones In School Zones

Chief Tim Lentz announces that a new state law restricting the use of wireless telecommunications devices in school zones went into effect August 1st of this year. The new law prohibits drivers from using cell phones in school zones during active school zone hours for telephone calls, sending and receiving electronic messages (including text messages and emails) and posting or reviewing social networking sites.

The law does not restrict drivers from using these devices in a hands-free manner and provides for some other exceptions. The exceptions listed are reporting a traffic collision, medical emergency or serious road hazard; reporting a situation in which the person believes his personal safety is in jeopardy; reporting or averting the perpetration or potential perpetration of a criminal act against the driver or another person; operating the device while the vehicle is properly parked; and use of the device in an official capacity while operating an authorized emergency vehicle.

Louisiana Revised Statute 32:300.8 Use of wireless telecommunications devices in school zones prohibited; exceptions is considered a moving violation with a maximum fine of \$175.00 for the first violation and not more than \$500.00 for each additional violation. If the person in violation of this law was involved in a collision at the time of the violation, the fine shall be doubled.

The Covington Police Department has launched a campaign to educate drivers of this new law. Officers will be seen in school zones monitoring drivers for the use of these devices and educating them on the new law. Signs prohibiting the use of these devices in school zones are in the process of being added. Officers will educate drivers in lieu of issuing citations until the signs are in place and drivers have had time to learn about the new law.

The full text of the law can be downloaded from the Louisiana Legislature website by searching for **Louisiana House Bill 370 Act No. 410**.

Chief Lentz states, "A majority of accidents are caused by distracted driving. We ask our community to help in protecting our most valuable asset, our children."
